And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

A very warm Tibetan greeting to you and happy effects of a lunar eclipse.

Now in **retrospect** even, one can set their intent for any event. So remember Time and Space are transcended in Spirit and Time and Space are believed with the mind. So since the lunar eclipse on February 20, 2008 is a very, very important time period, I would suggest that you go back and rather consciously and with solemn intent, set the goal specifically that you would like to have come to completion as a result of this eclipse and how it affects you, and that goal culminating about 2 and a half years later, so around December of 2010.

Now this would perhaps include maybe a goal of a financial stature, or a job position or adding to your family, changing the status of your health, whatever that goal may be. Be very... I want to say, serious, maybe more than solemn or determined, "This is exactly what I am going to get from this eclipse and I am going to co-create along the way, assuring that I get the positive results that I am looking for within that time frame."

Alright. Now we also have some very intense kind of pressure cooker energy going on besides the particular eclipse so we want to take a moment here to bring kind of a soft pink color. Take a

maybe few deep breaths and allow a soft pink color to just permeate the atmosphere of the Earth. So anywhere where there is oxygen basically in the atmosphere around the planet is a pale pink color and of course as we get higher up in elevation, the shade of pink will be a little lighter. We want to see that very lovely kind of Divine Pink, it is calming, it is soothing on the nerves and it helps counter negative environmental effects.

Then you also have, I would say, a lot of fear programming being triggered in various places around the planet. So let's work vibrationally with the energy of Aconitum Napellus. That is a homeopathic remedy sometimes nicknamed Aconite. We want the 30x potency and we want to see that Aconitum Napellus 30x again just sort of energetically distributed throughout that pale pink color [surrounding the Earth] to help nullify fear and terror. Good.

Alright everyone. This has been your Spirituality Article information for this particular week. I hope you enjoyed the information and as always, I send my love to you.
