(Channeling begins)

Djwhal Khul here. Tashi Delek.

The very exciting news is that whatever commitments you made in May, and particularly around the Wesak full moon, and if your desire as a World Server is to expand your scope to reach the many, or in some way, stop serving one on one and start serving large numbers, making a much bigger impact on the world and in the world, then this is your *perfect* energy field.

From now till about November, what is going to be happening is sort of an about face that is going to keep taking you back to that commitment. It will also keep bringing you around to “Well, I thought I was going to do it this way, but that is not panning out, so here is a new way”.

So your creative energies will remain strong and high. It will require that you let go of either some beliefs that were working and stopped working, or you might shift because the economy takes a shift, and then you match it or meet that curve, or stay ahead of the curve. It could be that your living situation needs to change, needs to do an about face so that you can move into your service path more completely.

There are all kinds of things that might look like upheaval but really what they’re doing and particularly so if you keep your focus upon this, is pointing you in the right direction to fulfill your

commitment. It's just that outdated beliefs or limited thinking will not stand up during this time period.

Now when I look at this on a larger scale, and say, all the members of Humanity that made prayers, maybe they were focusing on better health, maybe they were focusing on deeper intimacy in their relationships, whatever they were focused upon, and this applies to them as well.

And when I look on a political front and political commitments, maybe a commitment towards World Peace, or a commitment towards continued war, these things are also strengthened. So it is going to be very, very interesting.

You'll find that my topics for the Wednesdays and the Saturday in July are going to be focused with a tremendous amount of work serving Humanity. Not just your own personal growth consciousness, but quite a bit directed towards Humanity. So I hope you will visit those topics on the website and take a look to see if any of those call to you as a lightworker or World Server.

Alright, so enjoy the Uranus retrograde. Enjoy the about face. It gives you a window of time between now and about November, I'd say right around November 4 or 5, where *your inner commitment will be fulfilled as long as rapid changes are met*. Keep in mind that as a Spiritual Hierarchy, what we are looking at is: What is Humanity at large invoking in terms of World Peace or continued war? And right now, weighing more heavily on peace, which is good sign and that is what we want to keep flowing in that direction. So, it should be a very interesting time period.

I would encourage you to keep journals of events and then reference back to this particular message and see how it plays out, because I think you will find it quite fascinating.

Alright dear ones. As always, thank you and my love to you,

Djwhal Khul
