And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Today and all this week, we work with the energies of the Dark Side of Humanity. The Dark Side of Humanity will be working through a number of effects that I think are rather challenging. I would say that we have a number of things going into place here. Probably most noteworthy, would be the energies of the moon and the Scorpio vibration. So it's Moon in Scorpio, we are starting there, and then we have what I would call a number of other challenges.

Now those who are oriented toward ignoring their dark side will not be able to ignore it any longer. Those who are oriented towards indulging in their dark side will find themselves either less inclined to indulge in the dark side, in other words it is not so romantic any more, or, even more so, like they want to go to the deepest part possible. Part of that is the Scorpio Moon influences death and transition. It influences flirtation with death or darkness.

So what I want to do here is work with the Light and work with Illumination of Love. So as we counter the energies that are occurring on a global scale, we work within ourselves with the illumination of Love.

Fear is void of love. In other words, fear can only be present when love is absent. So when we illuminate the love aspect in the body, in the consciousness, in the world, what we are doing is calling forth the true nature of Creation and we are eliminating the darkness aspect. Breathe in Love. Just breathe in pure Love. And when you exhale, you let the darkness out. You can inhale again, pure Love. Exhale and consciously let the darkness leave you, wherever it might be stored in the body, let it leave you. And one more nice deep breath, pure Love, tingling all over with the vibration of Love energy and then a big exhale to let all the darkness leave the consciousness. Good.

Alright then. We are going to go into a violet flame next and work with transmuting the energies, just whatever it is. Violet flame has its own vibratory pattern. In other words it's self correcting and you can just immerse yourself in violet flame and allow the energies to do what they will do.

I might note here also that on Saturday September 6, the moon will enter Sag. Very early, wee hours of the morning; just after 3 a.m. in New York and just after midnight in Los Angeles. So the vibration will begin to shift then but again I see, careful choosing what you want. It's not a good time to think about death and mortality. It's a better time to think about eternity and life and consciously choose to be fully alive and then breathe that Love in, breathe the darkness out. It is going to be your best remedy for this time period.

Now we have planets turning direct. It's going to be a lot of fun. You are going to see Jupiter direct on Sunday, Monday. I am going to say that for that one you might work with a direct relationship with your Wheel of Fortune. Now it might not be money. Your Wheel of Fortune might be good luck or great relationships or impeccable timing. Whatever is your Wheel of Fortune, that which brings *you* fortune, work with expanding it at that time.

Alright dear ones. As always, thank you and my love to you.
