And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin with a beautiful new energy here that coincides with the Full Moon. And it is one of Increasing Light, even though we're in Fall, approaching Winter. The energy that is present is that of *Increasing Light*.

The energy from this particular Full Moon can still be felt and will probably be good just until about the New Moon following it and the vibrancy will be that of "Create New Things", you know, follow through maybe with some previous plans, and create more opportunities.

Now, of course, as we get into Pluto going direct in Capricorn on the 26 of November, we will be putting on a special teleconference. We'll have a few more between now and New Year's Day and the special teleconferences will be literally for Light Workers to usher in that particular event as well for ongoing Shamanic training.

So now, it is *Increasing the Light*. It is more present. And any choices that you make toward increasing the light will be what the Light is used for. In other words, if you choose to increase your health, or you choose to increase your wealth, or you choose to enrich your relationships, or perhaps you want to expand your circle of influence for your service work. Whatever you choose to focus the energy upon will get the effect.

So let's work with the Increasing Light coming in through the Crown Chakra. Let's take a few minutes to breathe a bit and let the Light come in through the Crown Chakra. Now this may feel like a little bit of pressure; that's because it is an expanded light that is present now, almost like bringing Jupiter into the top of your head or something, a very very expanded energy. So really take a moment to feel it right there on top of the head and coming into the head and again maybe just a pinching sensation as the body adapts to the energy and then at some point something will relax and it will be quite comfortable.

This is a time of rapid growth and expansion and it is going to happen globally. It is also a time where anything can happen. You can create it miraculously and rapidly. You know people will say "No, that will take 10 years to get to that goal" and you find you can get there in a year and a half. Or you think "Well, it's going to take all day to clean up the garage" and it takes half a day. So it's a time to really move forward and accomplish as much as possible.

And I would remind you in night school as I call it, or when you're sleeping, that you can request before you go to sleep to maybe go learn more about astronomy or go learn more about how atomic particles function or go learn more about the ascension process. Or maybe take a healing class in your sleep or maybe go to a healing chamber and receive a healing while you are sleeping. So don't forget to specify what you would like as you are falling off to sleep.

Alright dear ones, this has been your Spirituality Article information for this particular week. We will continue to keep these inspirational messages coming.

Thank you and my love to you,

Djwhal Khul
