And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. I am going to focus today upon the values and properties of starting from scratch.

Essentially we passed recently a New Moon. Very interesting heavenly occurrences and disturbances during the New Moon, then we have the Sun moving into Scorpio, quite a bit of activity for starting over and getting a new starting point, etc.

So what I would like to talk about is Starting From Scratch. As a lightworker, you might find yourself being reinvented, whether you consciously went in a new direction or circumstances in life are creating situations in which you must go in different directions.

The shuffling of the deck, as we sometimes call it, is an activity when lightworkers are reassessed. So you may have said, "Well, I am going to be this wonderful healer and I'm going to see people privately and do one-on-one work." and now all of a sudden you find that your next calling, if you will, might be being an author, or being a public speaker, or graphic design or anything other than what you used to do and it may feel as though you are starting from scratch.

However, essentially, you correlate or bring together the information from this lifetime, other lifetimes, and you technically have a very rich resource base from which to create this new direction. So one of the key elements to that is simply letting go of needing to know what it is, how it will look, perceiving that you must get more training for this new direction because most of the time, it is 9 times out of 10, you don't need further education or training, or maybe a little bit, but minimal.

So allow yourself to also find the support system, literally magnetize to you the people who can help you co-create success. I think you are going to find that it is a very interesting time of letting go, welcoming, starting over from scratch or starting from scratch and then realizing that scratch means you go to the cupboard and there's the flour, there's the sugar and then you go to the faucet and there's the water and then you go to the refrigerator and there are the eggs and the butter and what not.

So scratch means the ingredients are already present. Just put them together a little bit differently.

This has been your Spirituality Article information for this particular week. As always, thank you and my love to you,

Djwhal Khul
