And here is Djwhal Khul’s latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We have a very interesting week mostly due to Summer Solstice but also due to some other factors. There will be some need to be very flexible as plans may change, particularly over the weekend, and then also to temper the emotions from time to time. There may be, as we get a

little closer to Monday, Tuesday, Wednesday, so the 21, 22 and 23 days of June, that there may be some easily flying off the handle, etc.

So in the interest of keeping peace and harmony, you might want to work with a cool green color, a very pale cool green color, and just see this as a solid sheet of color, transparent. Maybe a cool green tint may be a better way to describe it, everywhere in your aura, and literally, sometimes, you will begin to feel the skin feeling a little bit cooler as well when you work with this color.

I know a lot of family gatherings will be happening because this is Father's Day, etc. Keep the humor in "Oh we're going to eat at this restaurant. Oops, that restaurant isn't open or they're overbooked and now we have to go to another place."

You might be having that kind of situation. I would consider it common for the astrological configurations that are on that day.

So cool green tint for emotional harmony, happiness and stability. And enjoy your Summer Solstice.

As always, thank you and my love to you,

Djwhal Khul
