(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. This is a tumultuous time. We have several eclipses in a row, three, plus the Summer Solstice all affecting from June 1 through 7/1 and we have some rather emotional influences being heightened at this time.

So I thought this particular week would be a good time for a topic that I've discussed for many years: "As Is Acceptance".

Essentially, in a state of Mastery, you look at life the way it is and you accept it as it is. Look at other people as they are and you accept them as they are.

So Self is of course the starting point. To look at one's Self and accept yourself as is. With that framework, when you can do that, then of course you can accept all others as is.

And then we take it all the way out from Self to relationship partner or family unit onto other relatives, community, and keep going outward even to maybe the level of country, planet, etc. And just kind of keep going until the point of realizing that you also accept Creation As Is.

So As Is Acceptance is one of the main keys to inner peace and world peace and it's good to practice it.

And then from there, you can say "I accept myself As Is and *now* I would like to learn some more skillful ways of presenting myself" or "and *now* I would like to break a specific pattern" or however it is, so that the practice becomes not judging Self or anyone else or any aspect of Creation when you are living As Is Acceptance.

As always, thank you and my love to you,

Djwhal Khul
