

## **CALLING ON ANGELS!**

**Your personal session with  
Ascended Master Djwhal Khul  
Channeled by Rev. Terri Newlon**

**(This is a sample session)**

**Congratulations on your willingness to transform an area of your life. This process works. Sometimes it is immediate, and sometimes the process takes days, weeks or months, depending upon the depth of the situation and your level of commitment. Stay with it and record your step-by-step process for optimal results. Again, congratulations!**

**Date of your session: January 24, 2008**

**The current effect you chose as ready for transformation:**

**I am a woman. I keep getting into relationships with men that start out great and turn into disasters. They abandon me in public places, leave in the middle of night, and don't show up or call when they say they will.**

**Description of the past life of origin:**

**You were deeply in love with a man and you promised yourselves to each other for eternity. This was done on a very auspicious full moon, and then he went to battle and never returned. You never knew for sure what happened to him. The promise has held for several hundred years. Unconsciously, you are still waiting for this particular soul, and turning away all others.**

**Reflect upon the circumstances of when you have met men in this lifetime, and when they tend to leave. Are these more often than not during full moons, holidays and celebrations, or holy days? If so, break that pattern by paying attention to those you meet on ordinary days and in ordinary ways. Also, use ceremony during full moons to forgive both yourself and the other soul, to release this no longer needed eternal vow, and to welcome fulfilling relationships with all men, romantic and otherwise.**

**Your Angel helper is called: Angel of Forgiveness**

**Number of times per day to call upon your Angel until resolution is realized: 12 or more**

**Specific Angelic Invocation:**

**Blessed Angel of Forgiveness, *show me* how to forgive myself and all others, for not following through with promises. Please *stay with me* until I have reached *full realization*. Thank you, Blessed Angel of Forgiveness.**

**Journaling Your Journey is a great way to document and integrate your progress. It also speeds up the realization process. Make written notes as often as possible.**

**Realizations and Results:**
