(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. It's a turn around year. *Absolutely fabulous* opportunity to literally flip things over, flip things around, do anything you want with any situation. So think in terms of your self empowerment, allowing you to turn anything around and then as usual, energy follows thought. So

it is not just the thought, energy follows the thought as well and sometimes some persistence and perseverance is needed.

In order to turn around things on a larger scale, say within economics and other things of that nature, it requires a certain amount of personal transformation and the ability to transcend certain things. So keep focusing inward upon yourself. Some of your New Year resolutions may be more toward "How can I accelerate my spiritual growth?" or "What changes can I make within myself to be a better human being?" We will have a lot of teachings especially in the first part of this year towards inner depth.

Now World Peace is something that is of course the objective of all those on the spiritual path. Really Universal Peace technically. This is a perfect time of year to bring in on a peaceful note, to perhaps sit in a peaceful state of consciousness, joyously. Just kind of bask in those energies. Then think again about what it is you want to set in motion and then give the energy to follow through to that.

So think also, because I am going to comment, because I know finances are getting more difficult for many people, that energetically on a global level, things keep getting masked or covered up or stalled for a while. And my current concern is late April and the month of May and also maybe the month of June. So if you can at this time just have some sort of reserve put away, that would be a good thing.

Alright dear ones. Wishing you a very happy New Year, a Turn Around year, so that you are walking briskly in a very positive direction.

Thank you and my love to you,

Djwhal Khul
