And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

The Solar Eclipse is approaching: Sunday May 20, with a New Moon in Gemini. Then the Sun will move into Gemini. It is a very, very potent day and I know there are many spiritual ceremonies occurring during that time.

On the following day, May 21, we'll do a Tele-Seminar called "[Politics In The New World Order](#)" because those are also affected by this.

Shortly following, really in the first week of June then, the Lunar Eclipse, a Venus transit, and then a few weeks later, a couple of weeks later, Summer Solstice and quite a lot of activity all spread out. It's just kind of a bombardment really.

So the Solar Eclipse has already been building up a bit. You might feel like there is a lot of pressure, kind of a cosmic pressure happening, the bodies are responding to it in different ways. Essentially, because we are so close to the previous Full Moon Wesak, you're still in very strong energies.

I would say rest more, drink more water, take electrolytes daily. Take supplements that bolster the immune system and do anything else that seems good for you. Like, you might want more prayer time, more meditation time, or more time to just read and relax.

So the Solar Eclipse I see, because of the Gemini influence, may be really affecting wind and water, sun and earth, also part of that Gemini twin energy. So we could see some strange weather patterns, also see maybe troubles with magnetics: magnets not working or even other things that normally stay fastened, just not staying up, falling to the ground instead.

So do proceed with your psychic antennas up, your discernment on, move slowly rather than quickly. It is not a time for racing around, it's a time for reading your environment, reading other people and moving forward with caution.

As always, thank you and my love to you,

Djwhal Khul
