(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Well we have, we have a lot going on. So I’m going to say there is, sort of, challenges coming up to the surface. There is a little bit of difficulty between masculine and feminine energies within yourself, as well as maybe externally, in family units or work relationships or world powers even.

Then we have, well, quite a lot going on really with the opportunity to heal some things but I think that this week I want to talk about “transparent thinking”.

Basically all of Creation is telepathic or can communicate non-verbally and rather instantly. The human race on the planet is finally getting a bit closer to the same abilities that the animal, plant and mineral kingdoms have to understand instant communication and wavelength, different frequencies, and what not. So that translates to humans becoming more psychic I guess you could say, in nature or more intuitive. And we certainly worked with a lot of Third Eye exercises over the time to help sharpen those skills, many of which are here in the [Spirituality Articles](#).

Because we're going to be having some troublesome thoughts, I think is how I termed it in the [Quarterly Forecast](#), one of the things I would propose to you is: What if every thought that went through your mind had to be spoken out loud? That's what I would call transparent thinking. So you're not hiding and you're not thinking "Oh her dress is such an awful color" and then saying "Oh hi, how are you today?"

So what if you had to say everything you're thinking out loud and please don't necessarily do that but use that sense of 'If I really had transparent thinking and I was consciously aware and everybody else was consciously aware of every thought, what would my thinking ideally be?'

So that's what I propose that you play with this week and really examine what transparent thinking would be like in a society where everyone knows. And maybe just kind of toss out some beliefs that you no longer want to keep and really reinforce out loud some beliefs that you *do* want to keep. You know things like "I choose love", "How can I love myself even more", "I choose safety", "I am Divine Will". You know, play with things you really *do* want to emphasize.

Alright Dear Ones. As always, thank you and my love to you.
