(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Last week we worked with “Transparent Thinking”. This week we’re going to work with “Transparent Feeling”.

What variety of things are going on during this week that really tends to change things quickly, so yoyo or change on a dime, turn on a dime, energies. We also have kind of a mish mash of manifestation coming out of different areas of the consciousness.

So if you have worries or fears of any kind or concerns, I'd say put them in blue triangles and clear them away. Because the *feeling* aspect will be amplified now. So if you're feeling angry, it will be closer toward rage. If you're feeling happy, it might be deliriously happy. That kind of thing.

Going to be harder for people to hide emotions, and even to the point of maybe seeing on television or something, that in their eyes or the quake in their voice or different things like that. So you're going to be seeing more transparent feeling as well.

Keep in mind that you can always ask yourself "What am I feeling now?" Just stop and resonate with that and then "What would I like to feel?" and so then you can move yourself emotionally where you *do* want to go. So you could say "I'd like to feel joy now" and move it into "I feel joy. I am joyous. Joy is what I feel."

Keep working with the vibratory patterns and with the commands in the consciousness to really move the energy in the direction that you *do* want to go. And be careful about those thoughts and things creeping in your dreams as well as these sort of fleeting thoughts. Like "Oh! I'm pretty sure that person didn't take one of my possessions. It probably was an accident." Or whatever.

So when you have the thought, really kind of investigate into "Do I have a fear of people stealing things? What's going on?" And you want to keep your consciousness as clear as possible so you don't magnetize that to you.

Alright Dear Ones. As always, thank you and my love to you.
